### YACHT INFORMATION

Galeon, known for her voluminous exterior, is now going all out in the interior of this series. An exciting new cabin layout provides a rich sense of space on board. The large lifting windows inside the saloon provide an airy feeling on board. These not only contribute to a light-flooded interior, but also to a summery driving experience. Another wow effect are the two 6-metre-long retractable balconies at the side of the saloon. This technology is a real innovation and conjures up beach club flair on board. A special extra are the stabilisers which ensure a quiet stay on the water both at anchor and during the journey. For those who long for action, the Williams Jet-Rib is available. This is suitable both for mooring at your favourite beach club and for enjoying water sports. The Galeon 640 Fly comes in a four-cabin, two-crew version, with an electric hardtop roof on the flybridge and a water purifier. The experienced crew of two will take you to the most beautiful spots of the Balearic Islands, from Mallorca to lively Ibiza and Formentera to idyllic Menorca and the nature reserve of Cabrera.
