### YACHT INFORMATION

With its new look, the Lagoon 40 is a real eye-catcher. The slim design effectively highlights the large hatches and the panoramic window.

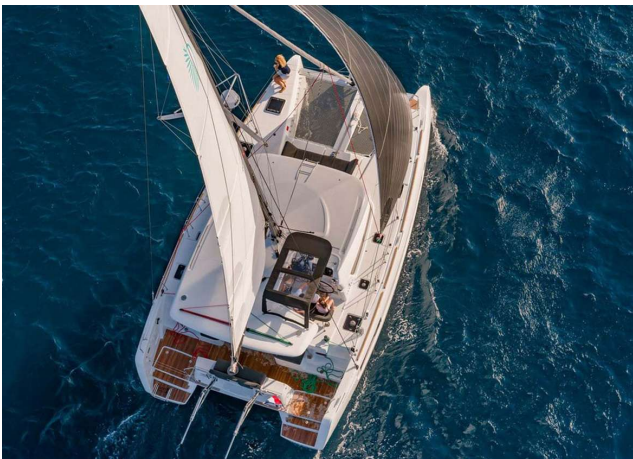

The ergonomic helmstand is accessible from the cockpit as well as from the deck, allowing easy communication between skipper and crew at all times.

Large stern steps also serve as a spacious bathing platform, which can also be used to board the boat and make the dinghy easily accessible.

The interior is elegant and flooded with light.

This new interior brings light incidence and gentle air circulation into the living area.
